RITHIK JAISWAR

Data Science & AI/ML Fresher | Python, SQL, Machine Learning & Generative AI

+918014452121 rithikjaiswar2121@gmail.com rithikjaiswar RithikJaiswar Bangalore, India

PROFESSIONAL SUMMARY

Computer Science graduate (MCA) with hands-on experience building Generative AI applications in Python using LangChain and Retrieval-Augmented Generation (RAG). Built multiple end-to-end projects, including a multi-agent research automation system and document/video question-answering tools, alongside a SQL Server data warehouse using medallion architecture. Brings a Data Science internship background in SQL-based analysis and machine learning fundamentals to applied GenAI engineering work.

WORK EXPERIENCES

Data Science Intern
Feb 2026 - Jul 2026

Intellipaat Pvt Ltd — *Bangalore*

- Applied **Python** and **SQL** for exploratory data analysis (EDA) on structured datasets, examining data quality and distribution.
- Wrote **SQL queries** to retrieve, filter, join, and analyze data from relational databases for reporting and analysis.
- Practiced the machine learning workflow, including data preprocessing, feature engineering, model training, and evaluation.
- Built foundational **Generative AI applications** using LangChain, LLMs, RAG, and Streamlit, laying the groundwork for independent GenAI projects.

Technologies / Skills Used : *Python, SQL*

PROJECTS

Multi-Agent AI Research System | Github Website
May 2026 - Present

Individual Project

- Built a **multi-agent application** using **LangChain's create agent()** to automate web research through specialized, task-specific AI agents.
- Integrated the **Tavily API** for real-time web search and **BeautifulSoup** for webpage content extraction, enabling agents to retrieve and process live information.
- Delivered an interactive **Streamlit interface** that generates AI-powered research summaries using the **Mistral API**.

Technologies / Tools Used : *Python, LangChain, Mistral AI, Tavily API, Streamlit*

AI Video Intelligence Assistant | Github
Jun 2026 - Present

Individual Project

- Built an **AI assistant** that transcribes and summarizes YouTube videos, audio files, and meeting recordings for fast content review.
- Integrated **Whisper** for speech-to-text transcription and stored transcript embeddings in **ChromaDB**, enabling RAG for context-aware question answering.
- Built a **Streamlit interface** using **LangChain** and **Mistral AI** so users can query video or audio content directly from its transcript.

Technologies / Tools Used : *Python, Streamlit, LangChain, Whisper, Mistral AI, ChromaDB*

RAG-Based PDF Question Answering System | Github
Jul 2026 - Present

Individual Project

- Built a **RAG pipeline** for PDF-based question answering, combining document ingestion, text chunking, **Hugging Face** embedding generation, and **ChromaDB retrieval**.
- Implemented **real-time document indexing** so newly uploaded PDFs become queryable immediately.
- Built a **Streamlit interface** enabling PDF upload and context-aware LLM responses grounded in the document content.

Technologies / Tools Used : *Python, LangChain, ChromaDB, Hugging Face, Streamlit*

Enterprise Data Warehouse (Medallion Architecture) | Github
Sep 2026 - Present

Individual Project

- Built a **3-layer (Bronze-Silver-Gold)** data warehouse in **SQL Server**, engineering automated ETL pipelines with stored procedures to ingest and integrate CRM and ERP source data.
- Cleaned, transformed, and standardized raw data (**deduplication**, null handling, key generation) into a reliable, analytics-ready Silver layer.
- Designed a **star schema** with fact and dimension views in the Gold layer to support business reporting and analytics on sales, customers, and products.

Technologies / Tools Used : *SQL Server, ETL, Data Modeling*

SKILLS

Programming Languages :	Python, SQL
Databases :	Microsoft SQL Server (T-SQL)
Frameworks & Libraries :	LangChain, Retrieval-Augmented Generation (RAG), Scikit-learn, TensorFlow, Pandas, NumPy
Soft Skills :	Analytical & Problem-Solving, Communication, Collaboration, Adaptability & Continuous Learning
Tools & Platforms :	Power BI, Matplotlib, Seaborn, Excel, Git, GitHub, Streamlit, Jupyter Notebook, Docker, VS Code

EDUCATIONS

D Y Patil SOM | Ambi, Pune
2023 - 2025

Master of Computer Applications (MCA), Information Technology — *CGPA : 7.05*

Pad. Dr.DY Patil ACS College | Pimpri, Pune
2020 - 2023

Bachelor of Computer Applications (BCA), Computer Science — *CGPA : 8.36*
